Countering the threat of the impact of authoritarian regimes on the cyberspace administration

Alexander Isavnin, 23 Sep 2019
How to counter the impact of authoritarian regimes on the cyberspace administration?
Никак!

Nohow
Никак!

Ну почти (not exactly)
Raising awareness

Evil beware the light
Threats on global level

● Telecommunication administration
● ICT and cyber security administration
● IG spoilage
Threats from local level

- Global impact of local activities and regulations
- «BAD» example for other governments
Threats on local level

- Local telecommunication regulation
- Local ICT regulation
- Local security regulation

- Imitation of activities
  - Industrial associations
  - Civil society, technical community, academia
  - IGF
  - Multistakeholder
How to counter threats

1. Make everything public
2. Cooperate
3. Enforce multistakeholder approach
4. Participate
5. Do not shy to oppose government
